

Task 3 Info:

Background:

From the last two tasks monkeys started to get bored since Ernest and Kernest left the island. They started thinking outside the box for new adventures until they came up with the plan to travel to the other island and expand their knowledge. They lived in a very volcanic area where island popped on a random spot very often.

Task:

- Send monkeys to swim to the North, East, South, or West.
- Avoid hungry sharks!
- If new island is located -> 10 monkeys will be born to the island.
- Now a new island can send monkeys to explore the world.
- Repeat this action until all the islands are habited with monkeys.
